## **DiSTI Named Among Top 100 Military Training Companies**

### ***Military Training Magazine also awards DiSTI as industry innovator for GL Studio solution***

**Orlando, FL September 25, 2007** – DiSTI, a global leader in Human Machine Interface (HMI) development, today announced that Military Training Technology Magazine (MT2) has recognized DiSTI as one of the top training solutions providers to the military in the publication's sixth annual Top 100 ranking. Additionally, DiSTI received an "Outstanding Innovation" award which signifies that DiSTI is leading the simulation and training industry in innovation with its new Java-enabled capabilities, part of the GL Studio toolkit and professional services offering.

MT2's Top 100 ranks companies that have made a significant impact in the military training industry, from distance learning companies, to modeling, gaming, simulation and other training-related businesses.

DiSTI was one of 600 candidates evaluated by the publication's editorial board and a panel of independent simulation and training experts. Award recipients were selected based on a range of criteria including total military sales, end-user feedback, innovations and need for the solution.

"MT2 is an outstanding publication with a commitment to showcasing military training as a critical component of command readiness," said DiSTI President Joe Swinski. "Similarly, DiSTI is dedicated to meeting the training needs of our nation's military. We are proud to be considered a leading innovator among so many prominent organizations. We look forward to continuing to provide dynamic, leading-edge training capabilities to this sector."

## **About DiSTI**

DiSTI is a global leader in the development of Human Machine Interface software for businesses, governments and the military. The company's flagship products, GL Studio and GL Studio for Java, enable programmers and developers to build high-fidelity graphics, 3D simulations and fully interactive controls into their models, enhancing the level of realism and sophistication, while improving learning and retention.

More than 400 customers worldwide including BAE, Boeing, Dassault, FedEx, Lockheed Martin, Honeywell, Raytheon and Thales use DiSTI solutions to build maintenance trainers, create PC and Internet-based courseware and to develop components for safety-critical applications. As a full service provider, DiSTI offers a complement of custom programming and development services, and is the recognized leader in training solutions for the global simulation and training community.
